PHYSICAL CHEMISTRY

Vol. 1 No. 1 | February 2021

- ▶ Synthesis and Application of Nanolayered and Nanoporous Materials
- ▶ Molecular Dynamics Simulation of Wetting Behavior: Contact Angle Dependency on Water Potential Models
- ▶ Preparation and Characterization of Curcumin Nanoemulsion in Olive Oil-Tween 80 System using Wet Ball Milling Method
- ▶ The Effects of Montmorillonite and Cane Sugar Composition on The Properties of Montmorillonite-Carbon Sulfonate Catalyst
- ▶ Synthesis and Application of $\text{Na}_2\text{O}/\text{ZrO}_2$ Nanocomposite for Microwave-assisted Transesterification of Castor Oil
